AIAG.org - Automotive Industry Action Group

AIAG formed a bar coding project team to investigate the various symbologies and determine the industry's new standard. In 1984, a single alphanumeric symbology (called Code 39) for the entire industry was established. AIAG also pioneered the concept of data identifiers, alphanumeric strings that indicate part number, purchase order number, quantity, etc. This concept was benchmarked by the ...

AIAG Standards, AIAG Standards In India : INFOTECH STANDARDS

The problem with AIAG began when it began to use ratios to help define what is acceptable for a measurement system. Output from the Average and Range method will usually have values (in addition to the standard deviations above) that are expressed as a % of the Total Variation. These are ratios of each standard deviation to the total standard deviation (TV). This calculation is intended to ...
