This isn't optional, and Apologia's award-winning homeschool high school biology course is designed to meet this requirement. Throughout their academic school year, students will conduct controlled experiments where they observe a problem, ask a question, formulate a testable hypothesis, and then conduct the experiment and analyze the data to see if their results support their hypothesis.

Homeschool High School Biology | Apologia

This user-friendly high school biology course from Apologia is ideal for homeschools. It's written in a style that makes the concepts easy to grasp, but at the same time provides excellent preparation for college-level biology classes. Learn about life science topics like cell structure, genetics, ecosystems, the five kingdoms, creation and evolution, and more.

Apologia Science. Apologia Science courses are written from a Biblical worldview with the homeschool in mind. At the elementary level, courses follow a Charlotte Mason-inspired methodology, with lessons organized around narration, notebooking exercises and hands-on activities or projects. Children at different ages can use these together, learning at their own level.

Apologia Science | Rainbow Resource

Apologia Science is designed to have the hands-on experimental component that is easily performed in a homeschool setting. We strive to create experiments that use common household items so that students can actively participate in their learning. Apologia textbooks have two main types of experiments:
