Business research:
Definition. Business research is a process of acquiring detailed information of all the areas of business and using such information in maximizing the sales and profit of the business. Such a study helps companies determine which product/service is most profitable or in demand. In simple words, it can be stated as the acquisition of information or knowledge for professional ...

This opportunity seeks to improve the connectivity between UK and Taiwan social science research communities. Proposals should contain a UK component, to be funded by ESRC, and a Taiwan component, to be funded by MOST. Applications to ESRC for the UK component must be submitted by a UK research organisation eligible for UKRI funding.
