### Sacred Plants And Their Medicinal

For while religious prayer, ritual and communion are engaged to propitiate god or gods, the use of sacred plants is intended to give the participant direct access to the divine experience. The difference is not slight but radical. Additionally, the sacred plants are used for healing purposes. True healing puts into order the body, mind and spirit with the past, present and future. Such integration is possible by various means, including by the ceremonial use of the sacred plants.

### SACRED PLANTS | Medicine Hunter

Sacred and Medicinal Plants of Native America. Our project focused on the plants most used by indigenous peoples for ceremonial as well as medicinal purposes. We made a field guide of these plants and flowers, which includes sketches of each plant as well as a description its properties. We discussed the chemical healing power of the plants and how combined with ceremony this power is enhanced.

Ayahuasca. Aka Banisteriopsis caapi. Ayahuasca is typically a mix of many herbs and plants, though Banisteriopsis caapi is the most dominant (and most important) ingredient, containing DMT. DMT is also known as "the spirit molecule," due to the intense, highly-spiritual "trips" one has after ingesting the substance.
